

Watercolor Pocket Sketching Workshop

Instructor Kath Macaulay

January 21, 22, and 23

or

April 7, 8, and 9

9-4 \$275.

Is getting started scary? Does carrying everything keep you from painting/sketching?

Whether you're a raw beginner or a professional, Pocket Sketching is for you. The format is only 4 x 6 inches and can go anywhere. When you're working, everything fits in your 'personal space'. In a café, on the subway, on a horse, who's to notice but you? Absolutely portable, the supplies fit in a fanny pack or purse, cost about \$38.00. (You can purchase at the workshop).

Whether you're journaling through Europe or sketching a 'designer dinner' in a restaurant, Pocket Sketching is the answer. In 25 minutes or less, you can capture what captivated your attention. (Why do your trip photographs never look like what you remember? The camera can't have your one-of-a-kind reaction to what you saw: only you can express what you felt you saw.) And when you're accomplished, this becomes a meditation with your subject, (for the painter, a source from which to paint in the studio). So much with so little!
